

## Library Director's report

Prepared by Director Susan Getty

July 11, 2017

Monthly statistics: please see attached statistical summaries for the month of June 2017.

### Financial/Donations:

- We've received \$1000 Bullet Aid Grant from Senator Betty Little. Thank you note has been sent.

### News/Issues:

- As requested at the last meeting, I have spoken with Amy Maxwell regarding the plant science/landscaping class she offers at the school, and the likelihood that they could help us with the front beds at the library. She explained that the plant science class is in the fall, which then leads into the landscaping class in the spring. Working with us is a possibility. They can help set up a community project: they could present plans and do some of the work, but they might not be able to complete it. We would have to step in. They cannot commit to any maintenance at all.
- Should we work on creating a logo for the library? This was discussed in the past, along with the possibility of having it be a community contest. Another option is to ask someone like Heather Bellanca, or maybe Paula Krieg, to design a logo for us.
- Could we consider a new projector screen? Ours is very worn and unwieldy.

### Programs:

- Summer programs are going well thus far.
- New program planned for July 27th @ 5:45 PM: Making the Most of Social Security (see attached program flyer).
